President Powell stated that the Student Publications Board, in response to a request from the Eastern Progress Advisory Committee, had recommended a change in the section of the advertising policy above. The recommended change would replace the statement with "Alcoholic beverages" ending with "except!", with

'Alcoholic beverages - in name, likeness or implication, except!'

President Powell further stated that this modification, which would change the wording of Section 1.C.2. of the policy, would permit ABC licensees to advertise in student publications, athletic programs, and other printed media. He did add that it would prohibit the naming, either by brand name or generic type, of alcoholic beverages, the reproduction of a likeness of an alcoholic beverage, or wording that implies alcoholic beverages.

President Powell stated that he recommended that the Board approve the suggested modification of the advertising policies, as outlined by him.

Mr. Metcalf made the motion that the Board of Regents approve the modification of the advertising policies. The motion was seconded by Mr. Phelps and approved unanimously by the Board.

Request for Easement - Hill Farm

President Powell reported to the Board that the University had received a request from the Henry County Water District for a permanent easement on the Hill Farm in Henry County. He stated that the requested easement would be 15 feet in width and would be immediately adjacent to the existing right of way of U. S. Highway 421 between the north and south property lines of the Hill Farm, which is owned by the University.

President Powell stated that he had discussed the request with Vice President Baldwin and he had reported to him that he believed that the request could be accommodated without significant inconvenience in the University's current use of the property and without effect on any future use or disposition of the property.

President Powell recalled for the Board that it had been the usual practice of the Board to grant easements of this nature, with provisions included to protect the University's interests in the property. He stated that Mr. John Palmore, University Counsel, had prepared the following Deed of Easement which incorporated these protections. (Deed of Easement will be copies in the Official Minutes of the Board). President Powell recommended approval of the Henry County Water District request and the authorization and execution of the Deed of Easement.

The motion was then made by Mrs. Shouse to approve the Deed of Easement requested by the Henry County Water District. Mr. Metcalf seconded the motion and the following members voted aye: Mr. Combs, Mr. Begley, Dr. Gross, Mr. Keith, Mr. Phelps, Mrs. Shouse, Dr. Algier and Mr. Metcalf. Those voting nay: none.

Revised Minimum Admission Guidelines

President Powell reported to the Board that at its meeting on January 13, 1983, the Council on Higher Education had adopted revised guidelines for undergraduate admission to the state-supported institutions of higher education in Kentucky. He stated that the major changes accomplished by these revisions was to prescribe minimum educational preparation for first-time freshmen entering University programs. He noted that provision was made for exceptions to these standards for up to 20 percent of high school graduates admitted to the freshmen class.

President Powell stated that a faculty committee chaired by Dr. Jack Culross, Associated Dean for Undergraduate Studies, had been studying implications of the change during the proposal stage and considering the possibility of additional admission requirements for Eastern Kentucky University. He noted that with the adoption of these guidelines by the Council, he expected the committee to move forward to complete its work.

President Powell stated that he was presenting this as an information item to the Board.

(Revised Admission Guidelines are included as Appendix B of this report)
Revised Minimum Admission Guidelines

Appendix B
GUIDELINES FOR UNDERGRADUATE ADMISSION TO THE
STATE-SUPPORTED INSTITUTIONS OF HIGHER EDUCATION IN KENTUCKY

I. Statement of Principles

Admission requirements shall be established by the institutions in keeping
with adopted policies of the Council on Higher Education. Pursuant to KRS 164.320(3)
the Council approves the minimum qualifications for admission to the public institutions
of higher education. (the-officially-published-admissions-criteria-of-each-state-supported
institution and requires that significant changes in these criteria be submitted for ap-
gress prior to publication.) It is the intent of the Council that all Kentucky resi-
dents shall have available to them an opportunity for higher education appropriate to
their interests and abilities.

Students from other states and countries will be accepted by Kentucky public
institutions providing that out-of-state enrollment does not inhibit the opportunities
of Kentucky residents to benefit from the facilities provided. Public institutions of
higher learning may establish additional admissions criteria that are in compliance
with Council policy established pursuant to KRS 164.020(5). (For-non-residents-as-are
required-to-conform-to-the-enrollment-guidelines-established-by-the-Council)

The American Association of Collegiate Registrars and Admissions Officers' Transfer Credit Practices of Educational Institutions shall serve as a reference for
the acceptance of transfer credits. Generally, a student dismissed from a college
or university shall not be accepted for the semester following his dismissal. Failure
to report enrollment at another institution may result in dismissal and/or loss of
credits earned.

The Council on Higher Education is concerned that the student's articulation
from one institution to another be as smooth as possible. It shall be the responsi-
bility of all public institutions to assure that the students is adequately counseled
concerning transfer of credit. Consistent with the community college objective of
a two-year curriculum, transfer from such schools is normally expected at the com-
pletion of requirements for the associate degree. Transfer prior to that time,
however, may be advisable in specialized programs.

II. Minimum Qualifications for Admission to Freshman Class

A. High School Graduates

1. Kentucky residents who have graduated from (accredited) high schools
that have met the standards of the Kentucky Department Education, taken the
ACT, and attempted no previous college-level work are generally granted admission
to the community colleges and ten community college programs at the individual
universities. Certain programs, however, may have additional admissions
requirements.

2. Kentucky residents who have graduated from high schools that have
met the accreditation standards of the Kentucky Department of Education, taken
the ACT, completed the minimum educational preparation and attempted no previous
college-level work have achieved the minimal requirements for admission to the
individual universities.

3. Applicants for admission who have earned a high school equivalency
certificate (GED) and graduates of high schools that have not met the accredi-
tation standards of the Kentucky Department of Education may be admitted to the
community colleges or community college programs at the individual universities
upon completion of the ACT exam. These same graduates may be admitted to the
individual universities by validating satisfactory completion of the minimum
education requirements on the ACT exam or by meeting the provisions for excep-
tional admission as detailed in subsection C. of this section.

(Graduates-of-non-accredited-high-schools-may-be-admitted-on-the-
basis-of-a-satisfactory-high-school-record-which-has-been-validated
through-satisfactory-score-of-the-AC..)
A. Non-resident graduates of accredited high schools must meet admission requirements in keeping with policies of the Council.

(As applicants for admission unable to meet the criteria stated previously, who have earned a high school graduation equivalency certificate and taken the ACT may be admitted to the freshman class.)

B. Minimum Educational Preparation

Effective for the fall semester of 1987, applicants who have successfully completed twenty (20) or more approved high school units including the following minimum academic preparation requirements are eligible for admission to the individual universities.

1. Four (4) units of high school study in English specifically including English I (2301), English II (2302), English III (2303), and English IV (2304) or the equivalent in content;

2. Three (3) units of high school study in mathematics, specifically including algebra I (2710) and geometry (2712) and one additional mathematics elective;

3. Two (2) units of high school study in science, specifically including either biology I (2517) or chemistry I (2521) or physics I (2352), and one additional science elective; and

4. Two (2) units of high school study in social studies, specifically including world civilization (2246) and U.S. History (2243).

5. In addition, college-bound students are encouraged to take, as part of their elective course selections, additional coursework in mathematics, sciences, foreign languages, arts, and computer literacy.

It is the responsibility of each institution of higher education to determine whether an applicant has met these minimum education preparation requirements. Individual institutions may accept evidence of requisite subject area competencies, specifically including ACT or SAT test results, in lieu of the successful completion of the high school courses specified above.

"An approved units is a course of study included in the Program of Studies for Kentucky Schools or offered by a school that has met the accreditation standards of the Kentucky Department of Education.

C. Exceptions to the Minimum Educational Preparation Qualifications.

Subject to the requirements and limitations established by the Council on Higher Education, individual universities shall have the option of admitting by exception first-time freshmen applicants who have not met the minimum educational preparation qualifications for admission. Beginning in the fall semester, 1987, the individual universities may grant exception to the minimum educational preparation qualifications and admit each academic term a maximum of twenty (20) percent of the total number of applicants admitted as first-time freshmen. First-time freshmen admitted by exception to the minimum qualifications shall remove or otherwise satisfy all deficiencies regarding the minimum qualifications in a manner and time period established by the enrolling university.
D. Special Students

1. Applicants of superior ability, as demonstrated by exceptional academic achievement, high ACT scores and social maturity, may be granted early admission to the freshman class.

2. At the discretion of the institution, applicants unable to meet college entrance requirements may be admitted to college classes for which they are qualified.

3. Kentucky residents sixty-five (65) years of age or older who are admitted to state-supported institutions shall have all registration and tuition charges waived. However, an institution may limit admission of these students if classes are filled, or if their admission necessitates additional classes.

III. Admission with Advanced Standing

A. Applicants who have attended another accredited college or university may be admitted with advanced standing in accordance with admissions requirements established by each institution. An institution may have additional requirements for non-residence.

B. Lower division academic courses offered for undergraduate credit at any accredited Kentucky community college are transferable for academic credit to state-supported universities. Lower division academic courses are those offered for undergraduate credit at the freshman and sophomore level or normally counted toward requirements for an associate degree. Usually numbered 100 to 299, these are introductory in nature and require no significant prerequisites. Determination of course level shall be made by the governing boards of the public universities and filed with the Council on Higher Education.

C. The number of semester hours earned at the community college level which will be applied toward meeting requirements for a baccalaureate degree will depend upon the degree being pursued. In cases where educational objectives have changed, students may take additional courses at a community college after having completed the associate degree requirements. In this event, the college to which the student plans to transfer should be consulted.

D. Although each public university has the responsibility for determining its degree requirements, it normally takes two additional academic years for a community college transfer student to complete baccalaureate degree requirements.

E. Credits presented from institutions not fully accredited may be accepted only when validated by advance work in the receiving institution and/or by examination at the discretion of the institution.
GENERAL POLICY ON
OUT-OF-STATE ENROLLMENT

The following general policy statements were amended to establish
the limitation on enrollment of out-of-state professional students in
state-supported institutions, as well as conditions to be met by non-
resident students entering the state institutions.

- The nonresident (out-of-state) enrollment in the schools
  of law, medicine, and dentistry at the state-supported
  institutions operating those programs is limited to no
  more than ten (10) percent of the total headcount enroll-
  ment in each program.

- Institutions which waive the out-of-state surcharge for
  out-of-state students will continue to count those students
  as out-of-state students for purposes of this policy and
  reporting to the Council.

- Nonresident students must meet the same admission require-
  ments as resident students and at least one of the following
  conditions in order to be admitted to the state institutions;
    - Graduate in the top fifty (50) percent of their high school
      class;
    - Demonstrate through other accepted measures the ability to
      pursue the college academic program without substantial
      remedial aid.
    - Nonresident students failing to meet the minimum educational
      preparation requirements as stated in the "Guidelines for
      Undergraduate Admission to the State-Supported Institutions
      of Higher Education" are eligible for admission under the
      exceptions policy stated in Section II-C of that document.
